Response to Restriction Requirement

Commissioner of Patents
U.S. Patent and Trademark Office
Customer Service Window, MS Amendment
Randolph Building

Alexandria, VA 22314

Sir:

In response to the Office Action dated March 22, 2006, in which the Examiner imposed a restriction requirement on the claims in the above-captioned application, Applicant hereby elects the claims of restriction Group I. This includes claims 1-9, directed to a process for the production of an L-amino acid product. As a species, Applicant elects microorganisms in which the thrABC operon coding for aspartate kinase, homoserine dehydrogenase, homoserine kinase and threonine synthase are enhanced (see claim 8, paragraph a)). All of the claims elected, *i.e.*, 1-9, read on this species in that it is not excluded from any of these claims. It is expressly claimed in claim 8, paragraph a). Although claims 4 and 9 are directed to processes in which there is a microorganism in which a gene is attenuated, they do not exclude the possibility of there being both a gene that is attenuated and an enhanced thrABC operon. It is respectfully requested that the claims in the non-elected restriction group, *i.e.*, claims 10-12, be cancelled without prejudice.

This election is made without traverse.

Applicant does not believe that any fees, other than those already provided for herewith, are required for the filing of the present document. Nevertheless, any fees that may be needed may be charged to our Deposit Account No. 06-1135 under Order No. 7909/81000.

If, in the opinion of the Examiner, a phone call would help to expedite the prosecution of this application, the Examiner is invited to call Applicant's undersigned attorney at (202) 419-7013.

Respectfully submitted,

FITCH, EVEN, TABIN & FLANNERY
